Arboriculture

Arboriculture deals with all aspects of tree care, including the production, establishment and management of trees in the urban environment. If you care about trees and are concerned for our environment then a career in arboriculture may be for you.

Our arboriculture unit has a range of specialist equipment and machinery, with a workshop and storage areas. In addition, you will have access to a wide range of native and exotic trees for identification purposes and the opportunity to carry out an extensive variety of tree management practices within the College grounds.

Career opportunities...

There is a huge demand for trained people in the tree care industry, both in the private and public sectors, with employment prospects both in the UK and abroad and we will prepare you for these opportunities.
